

June 17, 2010 Building Committee Meeting Notes

Present: Mike Longsdorf, Mike McMahon, Mike Berg (Ayres Associates), Ed Kassing, Linda Corey,

Rich White, Fr. Klink

Absent: Patty Usher, Mark Preston

The meeting was called to order at 7:02.

Mike Berg passed out drawings of a site and floor plan for the committees consideration and answered from the committee. The proposed site plan shows a one-way circular drive off of Sherwin Ave. that abuts a pitched roof canopy on the north end of the site. A vestibule links the canopy to the future gathering space area and the current west side entrance to the church. The floor plan shows 1150 SF of 'gathering space' between the rectory and the church, with 3765 SF of 'fellowship hall' space. It would comfortably seat 168 at round tables.

The committee liked the site and floor plan quite a bit. There is interest in finding out the cost of extending the canopy further, so that it covered the circular drive. We asked Mike Berg to give us elevations, a rough framing plan and preliminary cost estimates, with the inclusion of extending the canopy. Then we can 'work backwards' if we need to do that to stay within budget.

The next meeting date was set for July 29, 7PM.

Respectfully submitted,
Linda Corey
